MACARON

NEW 

L'INNOVATION DESIGN

Macaron collection reflects the pleasure of a perfect wine and food agreement in his name and his surprising gourmand silhouette. Its audacious bouncy shapes are at the service of the wines: they reinforce their power by a double play of closing and opening of the glass.

ASKA **NEW** 

ASKA THAR & TATRAS **NEW** 

SOPHISTICATED LINES

The Krysta™ barware items in the Aska range bear all the distinctive elements of contemporary high-end tumblers. An unusual conical shape, a heavy base, and thin sides create sophistication. The 38 cl tumbler is available plain or in two versions with a structured base. One is in the shape of a wave and the other features a 'brushed concrete' effect that pairs with the brightness of the crystalline. This reflection will surprise your customers, who are always looking for innovations.

OPEN 'UP

Open Up is a range of glasses with a contemporary and revolutionary design, which provides wine-drinkers with an incomparable tasting experience. Suitable for tasting all types of young wine («young» wine can be defined as 1-3 years for white wine and 1-5 years for red). The different models in the Open Up range cater for the majority of wine varieties and types produced worldwide. The shape of the Open Up glasses creates an actual "carafe effect" because the wine is oxygenated faster. The convex part (1) builds up aromas, which are then concentrated in the concave part (2)

DID YOU KNOW ?

Aromatic molecules do not all share the same weight: oaky aromatic molecules tend to concentrate on the surface of the wine, but fruity aromas are more volatile and have a tendency to move through the glass. This explains how we perceive wines differently depending on what glass we use!

COCKTAIL / CHAMPAGNE ★

DIMENSION	CAP.	CODE	
Ø 12 X H 16.5 CM	30 CL	1017489	6

OENOLOGUE EXPERT

Sophisticated lines... the secret of stylishly set tables. Since it was created in 1991 by oenologist Dany Rolland, this glass has proven a tremendous success with professionals: its unique, harmoniously curved shape respects even the most delicate wines. Initially made of crystal, now thanks to the new material Kwarx® it possesses matchless resistance, brilliance and transparency. Even though ultra thin, it is without doubt one of the toughest glasses on the market. Its sophisticated lines make it the secret of stylishly set tables.

DID YOU KNOW ?

Streaks or "tears" of wine, also called legs, arches, curtains or church windows, are the result of a phenomenon called the Marangoni effect. Alcohol being more volatile than water,

a thin layer of the more aqueous capillary effect then pushes this liquid up the side of the glass and the elevated surface tension forms drops that fall back down the side of the inner wall to form tears of wine. The higher the alcohol content, the more tears there are.

Extremely fine rim (0,8 mm)
agreeable on the lips

Fine bowl bore
no distorting «magnifying» effect

Widened base
Better aeration for wine

Flat base
stable, no depressions in which water can gather after dishwashing

GRANDS CÉPAGES

The Grands Cépapes line of glasses combines the pleasure of expert tasting with the sophistication of the tables that it graces. These stemglasses are specially designed to enhance wines created from the most exceptional red and white grape varieties. The special red wine glasses come in several sizes to ensure excellent appreciation of a wide variety of wines, from the most tannic and spicy to the most tender and fruity; while the special white wine glasses magnify the aromatic depth of superb whites.

CABERNET

Each tasting experience will find its perfect glass in the Cabernet line. Cabernet is a very large collection of stemglasses designed for tasting top wines. The Cabernet model comes in various sizes and two different shapes: tulip, balloon. These shapes and the fine rim of the glasses enhance the subtlety of the wine's aromas and flavour.

DECANTER AND JUG

Chef & Sommelier is a complete range of decanters which are both functional and aesthetically pleasing. Very special attention was paid to the design of each one. Decanters sizes and shapes are important, since every wine expresses itself differently depending on the volume and form of the decanter.

Chef & Sommelier

- The stopper prevents evaporation of the volatile aromas of white wine and of the subtle and delicate flavours of older vintages.
- The ergonomic shape and the dome at the bottom of the carafe where it can be gripped make handling the carafe very easy.

POLYCARBONATE

SUPERIOR BY DESIGN

Our drinkware is constructed from the highest grade polycarbonates. Our designs include heavy bases, and glass like modeling to create the most glasslike drinkware in the world

ADVANCED PRODUCTION

We have advanced production techniques that strengthen the internal structure, so we can guarantee against cracking or injection bubbles. Polysafe is one of the only companies in the world to do this

GLASS RACK

Camrack® The complete warewashing system

Wash, Transport and Store

HACCP

IDEAL CLEANING AND SANITARY STORAGE

The Camrack® System will protect glassware and keep it clean until the next event, therefore, rewashing is eliminated.

CAMBRO
C A M R A C K S®

VS.

Competitive
Open Glass
R A C K S

**Camrack Cover
Seals from the Top**

No dirty hands

No bacteria

No bugs

No rodents

**Camrack Dolly
Seals from the Bottom**

No dirty mop water

Portable sanitary storage system

Closed walls guarantee glasses stay clean until they are needed again

Easy handling and safe stacking

Inventory control

Unsanitary Storage

Open exterior walls allow contaminants such as dirty water, bacteria, insects, dirt, dust and employee fingers to pass through the sidewall, contaminating clean glassware, requiring costly rewashing and additional handling.

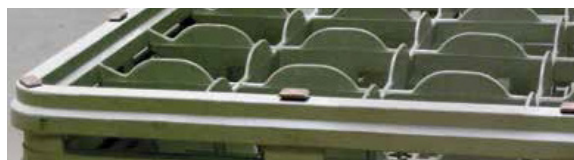

Unsanitary storage

Open walls expose glasses to contamination

Unsafe handling and difficult stacking

Difficult product identification

GLASS RACK 49 COMPARTMENTS
