IoniCare
More efficient drying

IONIC HAIR DRYER BREAKS DOWN WATER MOLECULES, CAUSING THEM TO EVAPORATE QUICKLY. IT WILL TAKE YOU LESS TIME TO DRY YOUR HAIR. YOUR HAIR WILL NOT BE EXPOSED TO HOT AIR FOR TOO LONG, MAKING IT LESS LIKELY TO BE DAMAGED IN THE DRYING PROCESS. AN IONIC DRYER WORKS DIRECTLY ON YOUR HAIR SHAFT, FLATTENING IT OUT AND TIGHTENING IT. AS A RESULT, YOUR HAIR WILL BE SHINIER WITH MORE VOLUME MAKING IT MUCH EASIER TO MANAGE. FRIZZ IS NOT A PROBLEM WHEN YOU GO WITH AN IONIC DRYER BECAUSE STATIC ELECTRICITY ISN'T A PROBLEM. WHEN COMPARING A STANDARD HAIR DRYER WITH AN IONIC ONE, IT IS IMPORTANT TO REMEMBER THAT THE IONIC VERSION DOESN'T EMIT POSITIVE IONS. THAT IS WHY IONIC DRYERS DRY YOUR HAIR QUICKER THAN STANDARD DRYERS - STANDARD DRYERS USE POSITIVE IONS THAT ACTUALLY OPEN UP YOUR HAIR FOLLICLES. IONIC DRYERS DO JUST THE OPPOSITE AND KEEP YOUR HAIR LOOKING JUST THE WAY YOU WANT IT TO.
